**RE: Submission for the HPV Category, Aromatic Extracts**

Dear Sir or Madam:

The American Petroleum Institute, on behalf of the Petroleum HPV Testing Group, is pleased to submit revised Robust Summaries for the HPV Category, Aromatic Extracts. This document contains information on studies not available in 2003 when the original HPV Test Plan and Robust Summaries were submitted to EPA. These Robust Summaries will be entered into HPVIS.

The Category Analysis for Aromatic Extracts will be sent to EPA as soon as possible, but the new Robust Summaries will provide EPA with all the empirical data on Aromatic Extracts that we are aware of.

New studies on "Extracts (petroleum), light paraffinic distillate solvent" are expected to be completed in the first quarter of 2012. Robust Summaries will be prepared then, sent to EPA, and added to HPVIS.

This document will be posted to our website, [www.petroleumhpv.org](http://www.petroleumhpv.org) soon. Please feel free to contact me if there are questions regarding this submission.

Regards,

A handwritten signature in black ink that reads "Russell D. White".
